International House World Organisation

International House Vancouver is a member of the International House World Organisation, an educational trust founded in 1953 by John and Brita Haycraft. Their aim was to raise the standards of language teaching world-wide and this aim has remained central to the organization ever since.

Over fifty years later, the network of schools affiliated with International House has grown to over 150 and are located in more than 50 different countries, creating a truly unique, global organization. As opposed to a franchise, IH is organized as a charitable trust with member schools under supervision from IH headquarters in London. International House is committed to ensuring the highest levels of language training and the delivery of excellence both inside and outside the classroom.
