

PP

High Gloss Copolymer (MI=10)

► BU510

● Description

BU510 is an impact copolymer suitable for injection molding applications. It exhibits excellent gloss and mechanical properties. BU510 is manufactured using 'Hanwha Total PP Plus' technology.

● Characteristics

BU510 is specially designed for high gloss property. It shows similar gloss level with ABS. The grade has a high stiffness combined with good impact resistance. Scratch resistance and stress whitening resistance are much improved compared with general PP. Processability is excellent due to very broad molecular weight distribution.

● Applications

► Home appliance housing, V/C part, W/M part etc
