

TECHNICAL DATA SHEET Revised: January, 2018

TECHNYL® A 205F Black 21 N is an unreinforced polyamide 66 for injection moulding. This grade offers two main advantages: excellent filling qualities and UL 94 V2 under 0.4 mm. It is particularly suitable for the moulding of long parts with thin wall sections

GENERAL

| Material Status | Commercial: Active | |
|--------------------------|--|---|
| Availability | Africa & Middle East Asia Pacific Europe | Latin AmericaNorth America |
| Key Benefits | Fast Molding CycleGood Flow | Good Mold Release |
| Applications | Cable ties Clips & Fasteners Consumer and Industrial apple Fixation systems Furnitures | |
| Certification/Compliance | EC 1907/2006 (REACH)EN 45545 | • UL QMFZ2 |
| RoHS Compliance | RoHS Compliant | |
| Colors Available | BlackGreyNatural ColorWhite | |
| Forms | • Pellets | |
| Processing Method | Injection Molding | |
| Resin ID (ISO 1043) | • PA66 | |

PROCESSING

Solvay Engineering Plastics

www.solvay.com - www.technyl.com

Revised: January, 2018

| Injection | Dry Unit |
|------------------------|---------------|
| Drying Temperature | 80 °C |
| Suggested Max Moisture | 0.20 % |
| Rear Temperature | 265 to 275 °C |
| Middle Temperature | 270 to 280 °C |
| Front Temperature | 280 to 285 °C |
| Mold Temperature | 60 to 80 °C |
| | |

Injection Notes

The material is supplied in airtight bags, ready for use. In case that the virgin material has absorbed moisture, it must be dried with a dehumidified air drying equipment, dew point mini -20°C. Recommended time 2-4h

Injection Advice:

- For unfilled polyamides, Solvay recommends the use of high alloy steel with a low chromium content. For example: X38CrMoV5-1 (EN Norm) 1.2367 /1.2343 (DIN Norm). In the case of high requirements on surface quality a mould temperature of up to 120°C can be considered.
- The processing parameters like processing temperatures are a recommendation and can be adjusted in function of injection machine size, part geometry / design

SAFETY INFORMATION

Detailed information regarding safety are available on the safety data sheet (SDS). SDS is sent with the first material order or available by contacting our customer services

REGULATIONS COMPLIANCE

This product is not intended to be used for the following regulated market: food contact, drinking water, toys, cosmetics or medical devices.

This grade complies with ROHS Directive 2011/65/EU and 2015/863 as amended.

Grades produced or imported in Europe comply with REACH directive 1907/2006/EC as amended.

CUSTOMER SERVICES

Our customer services are not only concerned with manufacturing and supply of Engineering Plastics products. We are available to assist our customers in finding technical solutions that meet their requirements. Specific support is in particular offered on:

- Material selection
- Material testing
- Parts design advice, training for design engineers
- Part testing
- Design simulation
- Processing through different technologies
- Assembly and post-processing technology expertise
- Parts optimization through Computer Aided Design

You can find more information on Solvay Product range on our internet product finder at the following address: http://www.technyl.com
